Experience Credit

Experience Must Be Directly Related To License Obtained

Employment Background for Evaluation of Experience Credit: (Be sure to begin with your **present employment/job duties and start date**. List your water system operation, maintenance and/or management experience and job duties for each specific job duty/position held. Attach additional information, if warranted. This list of experience and the above listed education will be evaluated to determine your compliance with the experience requirement. Incomplete or vague descriptions may delay the issuance of your license.)

Validation of Experience

Experience Validation by Owner or System Representative::

(If this section is not completed any experience described above can not be considered for experience credit.)

The above named license applicant has provided an accurate and complete description of their experience to the best of my knowledge as the **Owner, Manager, or Operator in Responsible Charge** of the water system named on page 1 of this application. If there is experience described above for another water system or other related experience, I have no knowledge why this experience should not be evaluated for credit.
